

TELEGRAPHERS WAIT ON BURLESON'S WORD

Will Not Call Off Strike Until Assured That They Are Included in Recent Order.

PLAN FOR A FINISH FIGHT

Konenkamp Says Walkout Is Spreading—Company Says Business Is Not Greatly Delayed.

TULSA, June 16.—Termination of the strike of the commercial telegraphers' union, officials announced tonight, now rests almost entirely in the hands of Postmaster General Burleson. They stated after latest reports from the American Federation of Labor convention that address statement from Mr. Burleson concerning the scope of the strike and what workers would be entitled before and after the adjournment of the Commercial Telegraphers' Union of America said if the demands of collective bargaining to which workers actually agreed were violated, telegraphers steps probably would be taken to end the walkout. Statements of no strike against the unionists we shall receive for a finish fight, a day for the same rights that have been denied the electrical workers.

S. Konenkamp, international president of the union, said a meeting of strikers here indicated that the strike was now international and includes nearly all countries, and declared the strike for railroad telegraphers to handle commercial business had clogged channels to scores of smaller towns throughout the Western Union Telegraph company on the other hand, denied commercial business was being fully developed.

NEW YORK, June 16.—President of the Commercial Telegraphers' Union, in charge of the strike here of Western Union and Postal Telegraph company operators announced tonight he had received a message from President S. Konenkamp in China expressing the belief that the strike might be terminated by next week in a manner satisfactory to both sides.

Mr. Konenkamp, was under the impression, Mr. Thomas said, that Postmaster General Burleson would issue an order by that date making available to telegraph operators concessions which he granted members of the International Brotherhood of Electrical Workers, but to government-controlled telephone companies. Officials of both telegraph companies declared tonight that they regarded the strike as virtually over, noting that many of the strikers are returned to work.

GERMANS GIVEN 7 DAYS TO SIGN TREATY

CONTINUED FROM PAGE ONE
The allied and associated powers therefore feel it necessary to gain their reply by a clear statement of the intent of the world, which has been forged by practical justice.

Greatest Crime In History.

In the view of the allied and associated powers, the war which began August 1, 1914, was the greatest crime against humanity and freedom of the people that any nation calling itself文明 has ever seriously committed.

For many of the rulers of Germany, true to the Prussian tradition, strove for domination in Europe.

It was not satisfied with that

Germany was entitled, and all other nations were willing to submit to its will.

It should be able to dictate and dominate over a subservient Europe, the ruling and tyrannized over Germany.

In order to attain their ends they resorted to every means through which they could make use of or carry away.

Germany has destroyed the shipping of all nations on the high seas, where there was no chance of recourse for their passengers and crews.

It is only just that these wronged people should be safeguarded, for a time from the competition of nations whose industries are intact and have been fortified by the machine stolen from the occupied territories. If these things are hardships for Germany they are hardships which Germany has brought upon herself. Somebody must suffer for the consequences of the war. Is it to be Germany or the people she has wronged?

"Not to do justice to all concerned would only leave the world open to fresh calamities. If the German people themselves, or any other nation, is deterred from following the footsteps of Prussia, if mankind is to be lifted out of the hell that was self-imposed, then it must pay the price of the old era, or be left behind, and nations, as well as individuals, are to be brought beneath the reign of law, even if there is to be early reconciliation and amends. It will be because those responsible for concluding the war have had the courage to see that justice is not deflected for the sake of a convenient peace.

"It is said that the German revolution ought to make a difference, and that the German people are not responsible for the policy of the states whom they have thrown from power.

The allied and associated powers recognize and welcome the change.

It represents a great hope for peace and a new European order in the future.

Supported War.

That is not to say that they deserved to be living, planned and fought the war. This is an less responsibility in which it was conducted. The arch-Germany was behind the interests of Belgium, Germany, and the Balkans.

Germany's responsibility is not that it was living, planned and fought the war. She is an less responsible for the savage and inhuman acts of her army than any other nation.

The allied and associated powers submitted to the submission of their action to use poison gas and incendiary bombs.
